## MEDICATION AUTHORITY FORM

For students requiring medication while at Rubicon

Is your child taking any medication?  Yes  No (If yes, please complete details below)

Student Full Name: \_\_\_\_\_ Medic Alert Number: \_\_\_\_\_

All medication must be within the expiry date, in the original bottle or container, clearly labelled with the full name of the student, dosage and time to be administered and storage instructions.

This form should, ideally, be signed by the student's medical/health practitioner for all medication to be administered at school but schools may proceed on the signed authority of parents in the absence of a signature from a medical practitioner.

Please only complete the sections below that are relevant to the student's health support needs. If additional advice is required, please attach it to this form.

Students in the early years will generally need supervision of their medication and other aspects of health care management. In line with their age and stage of development and capabilities, older students can take responsibility for their own health care. Self-management should be agreed to by the student and their parents/carers, the school and the student's medical/health practitioner.

Please note: School staff will seek emergency medical assistance if concerned about a student's behaviour following medication.
